Distance: 2700 km  
Time zone: 3 h

A horizontal rope is stretched across the frame, with seven small wooden clothespins clipped to it. Each clothespin holds a small, rectangular piece of colored paper. The papers are arranged in a row, each displaying a letter of the word 'WELCOME' in a bold, black, hand-drawn font. The colors of the papers are yellow, light green, blue, red, light blue, pink, and yellow, respectively. The background is a soft, light blue gradient.

# OFFICES

At the University there are two different types of administration offices, in each department there are:

1. the student office
2. the education department office

1. The **student office** is the administrative Office where information about enrolment in undergraduate or postgraduate programs is available. In addition, the staff help with online application related to:

- enrolment (1 year)
- transfers, change of courses
- application for graduation
- single courses

2. The **education department office** is responsible for matters related to degree courses and provide information on orientation and mentoring; course programs; lesson timetables and locations; exam dates; training opportunities.

# SERVICES

The **Orientation** service is designed for high school student to help them choose their future university career.

The **Tutoring** service has done by students who are enrolled on master's degree or phd programs. They are a reference point for the other students regarding any kind of problems.

The **Psychological Counselling** is available to support students during difficult times at the university. The counselling service is free.

The **Legal Assistance Service** is offered by University and it is a free legal advice to students to solve problems related to their period at the university.

There are five university **Libraries** located in different departments. Totally, there are 220,000 books, mainly composed by monographic studies, journals and book series.

# SERVICES

**Unitus Job** is a postgraduate service that helps students in the delicate phase of entering the job market and covers all aspects of this transition. Furthermore, this service helps the student to create a personal resume, to find internship, mentoring and project work.

The **Almalaurea** service as a link between universities and businesses. Its aim is to help young people to enter into the job market.

**Part-time Employment.** Students can be employed to carry out a job activity to support services of the university: libraries, laboratories, information and orientation services for students; support activities for disabled students and ADISU facilities. This employment is intended for students enrolled in undergraduate and master degrees of the University of Tuscia.

**Free Shuttle Bus.** The service is free and connects the Rectorate with the other departments, the train station, the refectory and the student's hostel.

# ON-LINE SERVICES

The **Student Portal** is the web system that students can use without going to the student office. The portal can be accessed with a personal password. Through the portal it is possible to: modify personal details, fill out personal study plan, check personal administrative status, examine personal study record, book exams, fill in questionnaires.

The **Department's Website** includes all the details relative to a degree program: general information, regulations, career opportunities, the academic calendar, final degree exam date and the teaching guidelines.

**Unitus Webmail.** The University of Tuscia offers its staff and students an e-mail address (@unitus.it and @studenti.unitus.it, respectively). The webmail is also for foreign students with their password and username. Furthermore with the UNITUS WI-FI, it is possible to connect and access to network services for staff and students by using a personal password.

The Ph.D. is the 3<sup>rd</sup> level of university education that can be accessed after master's degree and it consists of a combination of learning and research activities.

# Experimental Farm

The **Experimental Farm** “Nello Lupori” is located 500 metres away from the Agricultural faculties (DAFNE and DIBAF).

Its purposes are:

- improvement of our students' knowledge and promotion of the Academic research as well as technical and scientific activities;
- organisation of events and guided tours;
- contribution to the innovation and development of the agriculture and livestock farms;
- harvesting and sale of products;
- maintenance of the green areas of the University.

# Botanic Garden

The **Botanic Garden hostes** a wide range of Italian and exotic plants.

It offers:

- support to the didactic and research activities;
- possibility of gardening courses and training courses for disabled persons;
- possibility of guided tour.

It also collaborates with:

- the second level Master course in “Parks, Gardens and Botanic Gardens Guardian”;
- Banche del germoplasma (Germplasm Banks) whose aim is the conservation of Italian spontaneous plants.

# CUS

## University Sport Centre

The CUS Viterbo gives the opportunity to practice plenty of sports, on an agonistic level or as a simple hobby. It manages directly the sports facilities in the University Campus:

- a full size grass pitch for football;
- two multi use indoor sports halls;
- an outdoor tennis court;
- a five-a-side football pitch.
- a boules pitch.

The background of the image is a scenic view of a historic town, likely in Italy, with a prominent tall bell tower. The town is built on a hillside, and the foreground is a field of wildflowers, including purple and orange blossoms.
