# Setbacks

- Technical problems
- Insufficient interaction patterns
- Lack of attention/appropriate feedback
- Strong learners tend to dominate
- Lack of student engagement/involvement

# Stanford University's Learning Analytics Group

A study from Stanford University's Learning Analytics group identified four types of students: auditors, who watched video throughout the course, but took few quizzes or exams; completers, who viewed most lectures and took part in most assessments; disengaged learners, who quickly dropped the course; and sampling learners, who might only occasionally watch lectures.
