Vision of PhD Education Road Map Development

Due to the emergence of learner centered methods, social educational and labour market requirements, there is certain need to restructure the NAS RA policy on PhD education for PhD candidates' further employability and mobility.

Vision of PhD Education Road Map Development

In reforming PhD education NAS RA needs to

- to restructure PhD education organization policy for the efficient implementation of PhD candidates' research and professional activities
- to improve policies and procedures on the organization of the educational process
- to improve evaluation and relevant attestation regulations

Vision of PhD Education Road Map Development

- to develop policy on supervision of PhD candidates,
- Introduction of QA policies for monitoring of the academic progress
- to promote PhD candidates' academic mobility in the European research area by establishing and implementing joint PhD programmes with foreign HEIs (VERITAS project)

Priorities

Establishing a document, which lays down the general provisions of supervision, requirements posed to PhD supervisor and PhD student, regulation of legal relations. Introduction of QA principles and mechanisms in the third level of education. To get the feedback of PhD candidates through surveys and develop mechanisms for change making.'
